is Clearly Set Forth in the Annual Report Prof H Milton Rath to Superintendent Schaeffer

County Superintendent H. Milton Roth presents an able and interesting eport of the progress of education in Adams county, during the past year, is his annual report, which is us follows GEITYSLURG, PA, Aug. 1,1903.

WHAT HAS BEEN DONE BY DIRECTORS

TEACHERS AND PUPILS

Hon, Nathan C. Schaeffer, Supt. of Public Instruction Harrisburg, P.

My DEAR SIR It reviewing the work of the na ear, we can safely say that we have made much progress and though we have not reached the standard of etherency for which we have striven, we are encouraged in the fact that there is a general feeling in favor of advancement the county. Notwithstanding the evidences of progress, too little interest is manifested by pations and directors in visiting the schools. A director may think that he can accomplish nothing for the school by spanding a little time n it, but let any board observe the law regard to visitation, and the result will be increased attendance, attention ind interest on the part of both teachers

One new house was built at Idayille Iuntington township, and one at Bei der's church, Butler township - The for ner is a handsome frame building sixty eight by thirty feet, ceiling twelve feel containing two rooms, and wainscoted to the height of three feet. It has a slate roof, vestibule, porch, beifry and bell. The rooms are furnished with slate surface and ratent desks Cost of building \$1700 The latter is a beautiful brick house twenty-eight by thirty two feet with ceiling ten feet, and wanis coting three feet all around the 100m The room is finely furnished with plenty of slate surface and patent deaks. Cost about \$1300

These new buildings reflect much eredit upon the duectors and are approclated by the ortizons of the districts n which they are located.

Directors should not lose sight of the fact that school houses cannot be too mbstantial or handsome for the boys and the girls who spend most of the time within their wills. Neither can the school grounds be too beautiful or too well kept for them to play upon or look apon School lots seould be enclosed by lences, then they can be and should be suitably improved by ornamenting them with shade trees and shrubbery

Improvements and Apparatus Il imilton township repaired the Seve Innured house—the oldest house in the ounty-by laying a new floor, raising the ceiling, replastering and warnscoting the interior, repainting inside and out side, and putting on a new slats roof. A capola and boll have viso been placed on the building Cost about \$335 The formace at Pine Run was move

It ould be short, to the point, yet a bint of a suggestion. We are presumptious nough to say that while we have something of the kind in mind, which while t might not hit the bulls eye of he conception would yet be a shet in that direction, even if it went wide of the

Of course we are aware that there may e many who will comment on the above and say, that is one for the town and a half dozun for the printer. We deny it. Why do steamboats, railroad coinlanies, resorts and hotels extravagantly advertise Simply because it pays It would be a half dezen for the printer but thirty seven and a half dozen for the town We alimit we could do the print ing but we would as readidly admit the wisdom of thing it some one also did the printing The question is would not vertising and if it is, not Pretty Soon o. Later on but hight away

There might be many unique ways of dvertising to which attention could be given but such as we have suggested would certainly be worth while It might be two expensive for a single individual to care to venture, hence it could with propriety be made by a per manent committee and the expense fall actly what we did. There has been talk by contributions upon those who receive the most direct returns from tourists It ought not grind an txe for any one lown generally as it were, that is Later but for the town collectively. Here's the thought and the thing or the thing and the thought Tike your choice. What do you think of it Not Pretty-Soon or After-a-bit but Just-Now.

CONCLAVE AND SEVENTH BALLOT. He is Noted For His Piety, Culture, Dignity and Independence and His Election Due to Non Connection With Politics.

Cardinal Guissappe Sarto, of Venice, was chosen Pope by the Sacred College on Tuesday of last week and took the name of Pius X. The impressive ceremony of selecting a Pope as described in a recent issue of the Compiler was followed in every detail. The balloting began on the Saturday preceding. Two ballots were taken each day and the resuit was reached Tuesday morning on the seventh ballot when he received more than i of the fifty-nine cardinals voting. His name was not voted for on Saturday. Sunday morning he had two votes seven in the evening, twenty Monday morning and thirty-seven in the after-The four days' struggle was between
